- *Purpose*: To showcase a clean and adaptable landing page layout for various screen sizes.
  URL: https://kichu06.github.io/Responsive-landing-page/

PROFILE SNAPSHOT

Experienced professional with 2+ years of experience specializing in building scalable, responsive web applications and SPAs using JavaScript frameworks like Vue.js and React.js. Proficient in CMS integration, including VTEX and Flash, with a strong focus on enhancing performance and accessibility. Skilled in component-driven development, cross-functional collaboration in Agile environments, and automating workflows to optimize productivity. Detail-oriented in UI bug resolution and committed to delivering seamless user experiences. Adept at version control, code quality management, and driving measurable improvements in ecommerce platforms. Successfully converted detailed Figma UI designs into responsive, pixel-perfect web pages ensuring cross-device compatibility and accessibility compliance.

PROFESSIONAL EXPERIENCE

Front-End Developer| Motorola Mobility (a Lenovo Company) – Contract via Digital Minds, India | July 2024 – Present

- Crafted 15+ reusable Vue.js and SASS components, boosting code modularity and reuse by 40%
- Integrated over 20 React modules into the VTEX platform, accelerating page load times by 15% and enhancing e-commerce conversion rates
- Elevated web accessibility score from 70% to 92% through meticulous audits and optimizations using Lighthouse
- Troubleshot and resolved 100+ UI issues via browser developer tools and QA feedback, enhancing interface stability by 60%
- Partnered on CMS projects, facilitating seamless migration from VTEX to Flash CMS across 5+ portals without downtime
- Engineered a Python Scrapy bot automating 95% of product data entry tasks, reducing manual workload by over 10 hours weekly
- Translated complex Figma UI designs into fully responsive, pixel-perfect Vue.js components, ensuring consistent UX across devices

Web Developer | Lenovo India Pvt. Ltd., India | January 2023 – July 2024

- Collaborated with cross-disciplinary teams under Agile and Scrum frameworks, ensuring 95% adherence to project deadlines
- Delivered 15+ front-end features supporting 8 successful product launches, consistently meeting scheduled timelines
- Oversaw CMS content updates, expanding digital assets by 20% and driving a 15% uplift in average page views
- Developed dynamic single-page applications using Vue.js and Vuetify, cutting code complexity by 30% and enriching user engagement
- Implemented responsive designs across various web pages, boosting mobile user session duration by 25%

LANGUAGE

- Professional proficiency in English and currently pursuing an A1 Dutch language certification through Udemy
